AIMS

The main objective of the conference is to present exciting news in the field of **Innate Immunity of the Lung**. Guest speakers will present recent highlights and current hypotheses. In a poster session cutting-edge data will be discussed. The best posters will be awarded with a prize. The meeting will promote scientific exchange and will identify key tasks to be addressed in near-future research.

TOPICS

1. Medical needs in pneumonia
2. Pathogen sensing
3. Maintenance of the pulmonary barrier
4. Key effector cells of pulmonary immunity
5. Checkpoints in innate immunity
6. Damage, resolution, repair
7. Adjunct therapies: Going beyond antibiotics
8. Systems medicine

We are looking forward to welcoming you to our conference in the historic center of Berlin!
